

R&D Semester 2 2025 - Team Portfolio Submission

Network Performance Evaluation on Linux-Based Operating Systems

Physical Team

For our project, we have created our portfolio on OneDrive, mirrored it to GitHub, and created a website for presentation.

The website is our recommended way to view the portfolio, as it contains everything from OneDrive but in an easier-to-view format.

Please find links to the relevant resources and a brief explanation of each below.

OneDrive Portfolio

https://autuni-my.sharepoint.com/:f:/g/personal/cgr2690_autuni_ac_nz/EscADjwrFTNNlwuPii3DP3UB_sOPb4HmQAI9nLIR3O7NjA?e=119TBm

The OneDrive directory can be accessed with any AUT account.

GitHub Repository for Portfolio

<https://github.com/Linux-Network-Performance-Evaluation/Portfolio>

The GitHub repository is a mirror of our OneDrive directory with separate version control.

Website

<https://linux-network-performance-evaluation.github.io/>

We created a website to present our portfolio, with all the documents pulled from the portfolio GitHub repository.

GitHub Repository for Website

<https://github.com/Linux-Network-Performance-Evaluation/linux-network-performance-evaluation.github.io>

This is the GitHub repository for our website.
